### Overview

- **MDF wood counter with fabric attachment**
- **Includes a large carrying bag for transportation**
- **Can be used with or without fabric**
- **Features an inside wooden shelf for storage**

#### Applications:

This promotional counter is a perfect display for product demonstrations, samples, and promotions.

A portable counter, also known as a tradeshow counter, makes a great addition to any exhibit booth, presentation, or point of purchase display. With a bean-shaped design, this display counter gives event attendees a convenient place to approach your exhibit. Designed for portability and ease of use, this counter takes just minutes to setup and break down. Each portable counter includes its own carrying bag for traveling and wrench for assembly. We sell this portable counter with Velcro® fabric attachment for a customizable solution at a low cost.

A portable counter, such as a promotion stand or tradeshow counter offers a great reception point or workspace for events. This portable counter is made from `high` quality materials for a stable and durable display. The framing is constructed of a high-grade aluminum, while the base, shelf and counter are made from `MDF` wood. This portable counter comes with a receptive attachment that wraps around the aluminum siding, and can be used to attach accessories. The wrap-around fabric attaches to the aluminum with strips, and is ideal for holding signs, posters, and literature pockets. You can use this portable counter with or without the attachment for added versatility.
