A	Yes. This is what both of us think.	Reply by sign-in-china
Q	Do you have à jig where we can put THE wristband on?	
A	Yes, we will give 6 jigs together with the machine. Please refer to the picture of jig which is in the attachment. In my opinion, you just need to use double side tape fix it.	Reply by sign-in-china

Q	We have different sizes of wristbands. Can the machine engrave around THE wristband?
A	<p>I need to confirm your meaning here. Is it meaning you have round (circular) wristband? If you want to engrave on round material, you need to install one spin assist device. It is about 300 USD.</p> <p>Reply by sign-in-china</p>

A	<p>No. It is used for engraving only. Please refer to the 1st question. Both of us want to show the second layer through the machine.</p> <p>Reply by sign-in-china</p>
