### QA

Q

I explored your website and I found this part. My machines are PJ-1946NX and PJ-2216NXE, the printing width of my machines are 1960mm and 2210mm (approximately 73in and 87in). Would you know if you have steel belts of this length?

A

PJ-1946NX and PJ-2216NXE are not available in China, so we can not supply these two parts.

Q

I measured my steel belts to be sure of its length. Can you check your steel belts if they are of the same size. Thanks! A) Belt for Toucan - 19.25 feet. B) Belt for Osprey - 18.25 feet. Please check the corresponding lengths of you available belts. It doesn't have to be exact since it can be adjustable when it is installed in the machine.

A	<p>In China, the longest steel belts for Mutoh machines are 64 inches and 50 inches. Sorry, we can not supply steel belts to your requirement</p> <p>Reply by <a href="#">sign-in-china</a></p>
Q	<p>Hi good afternoon. I was able to determine the code parts of the mutoh. Do you sell these?</p>
A	<p>Good afternoon, I have check your Mutoh parts all around China. It is a pity that your Mutoh parts are not available in China. Your Mutoh machines and parts are not in field of Chinese agents. I guess you may turn to your old supplier or other suppliers in other countries.</p> <p>Reply by <a href="#">sign-in-china</a></p>
Q	<p>Can it be used for Mutoh RJ 4100</p>
A	<p>Dear Friend, I am sorry , it can not be used on RJ 4100.</p> <p>Reply by <a href="#">sign-in-china</a></p>
