Performance

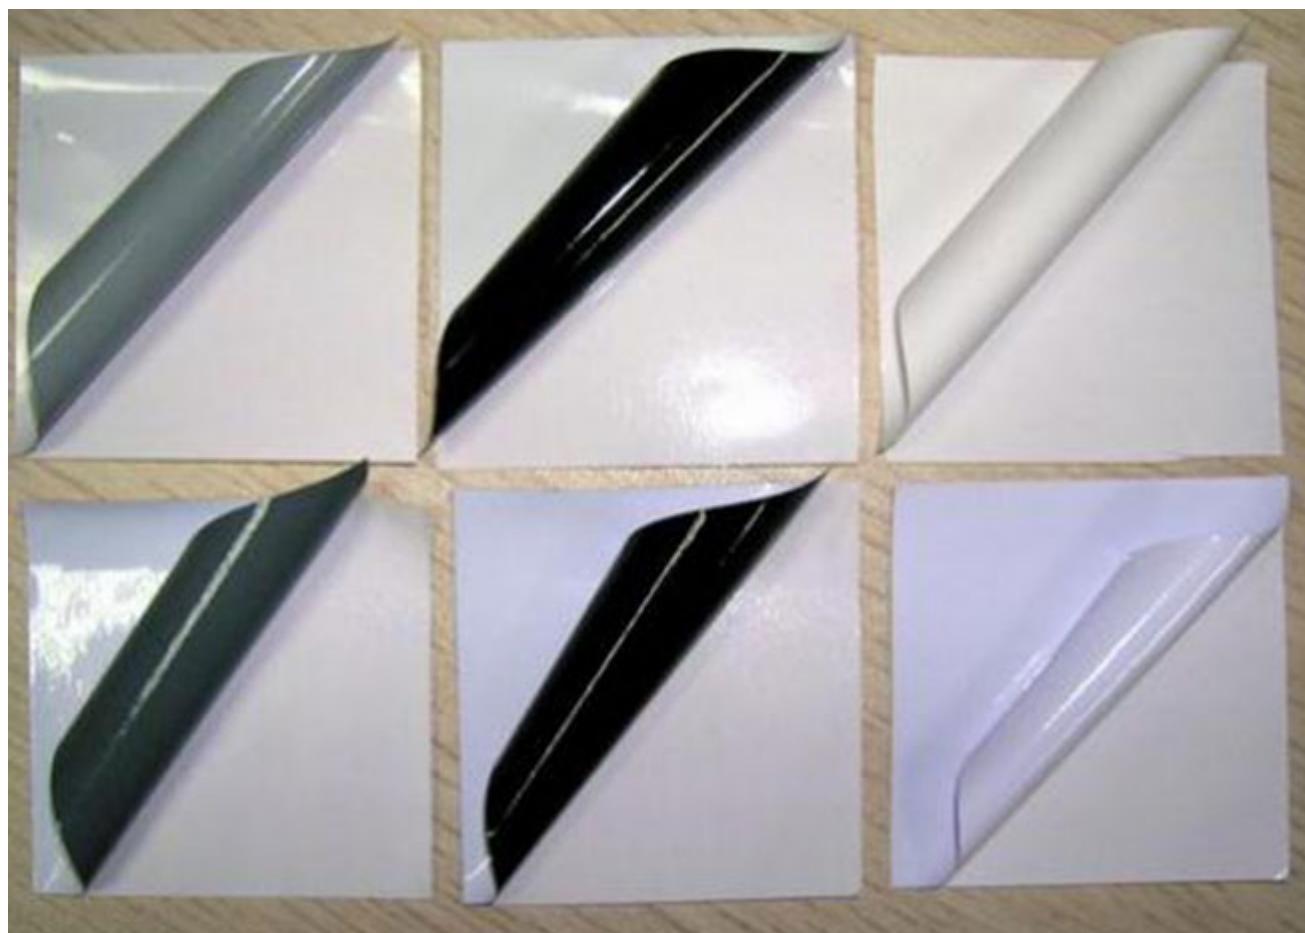

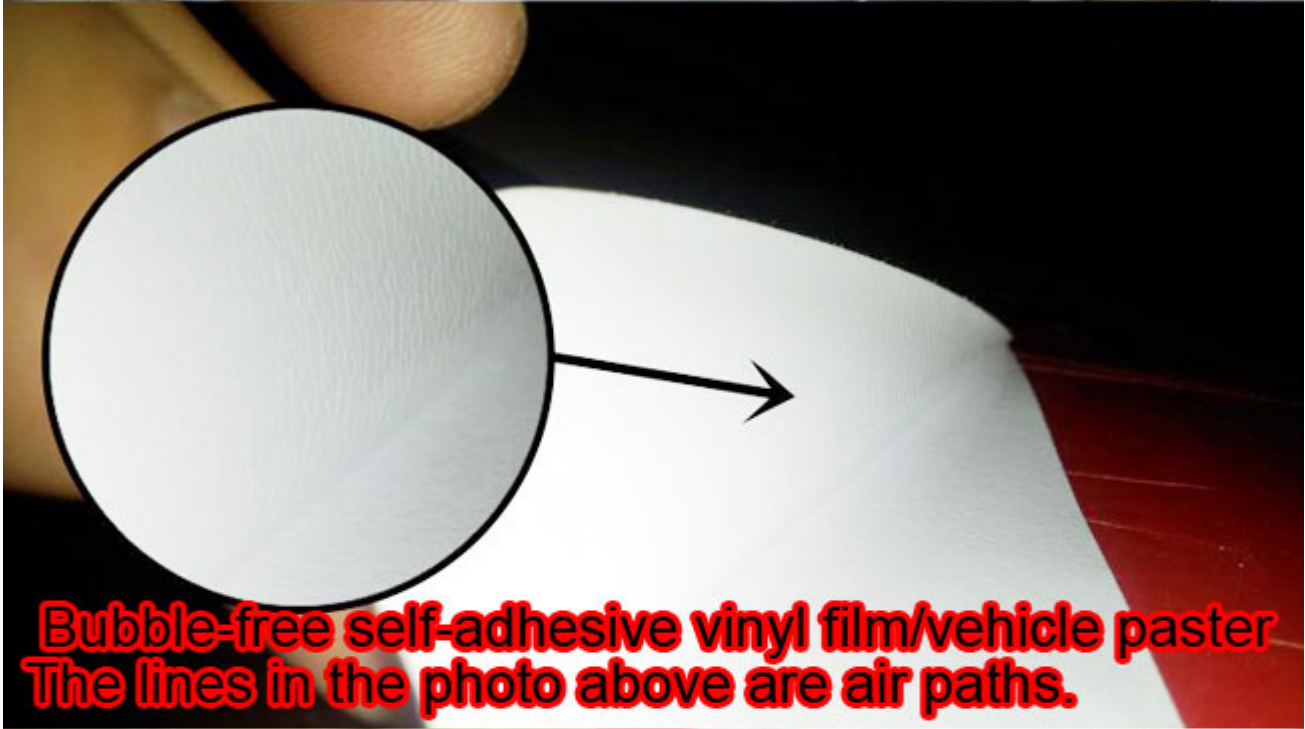

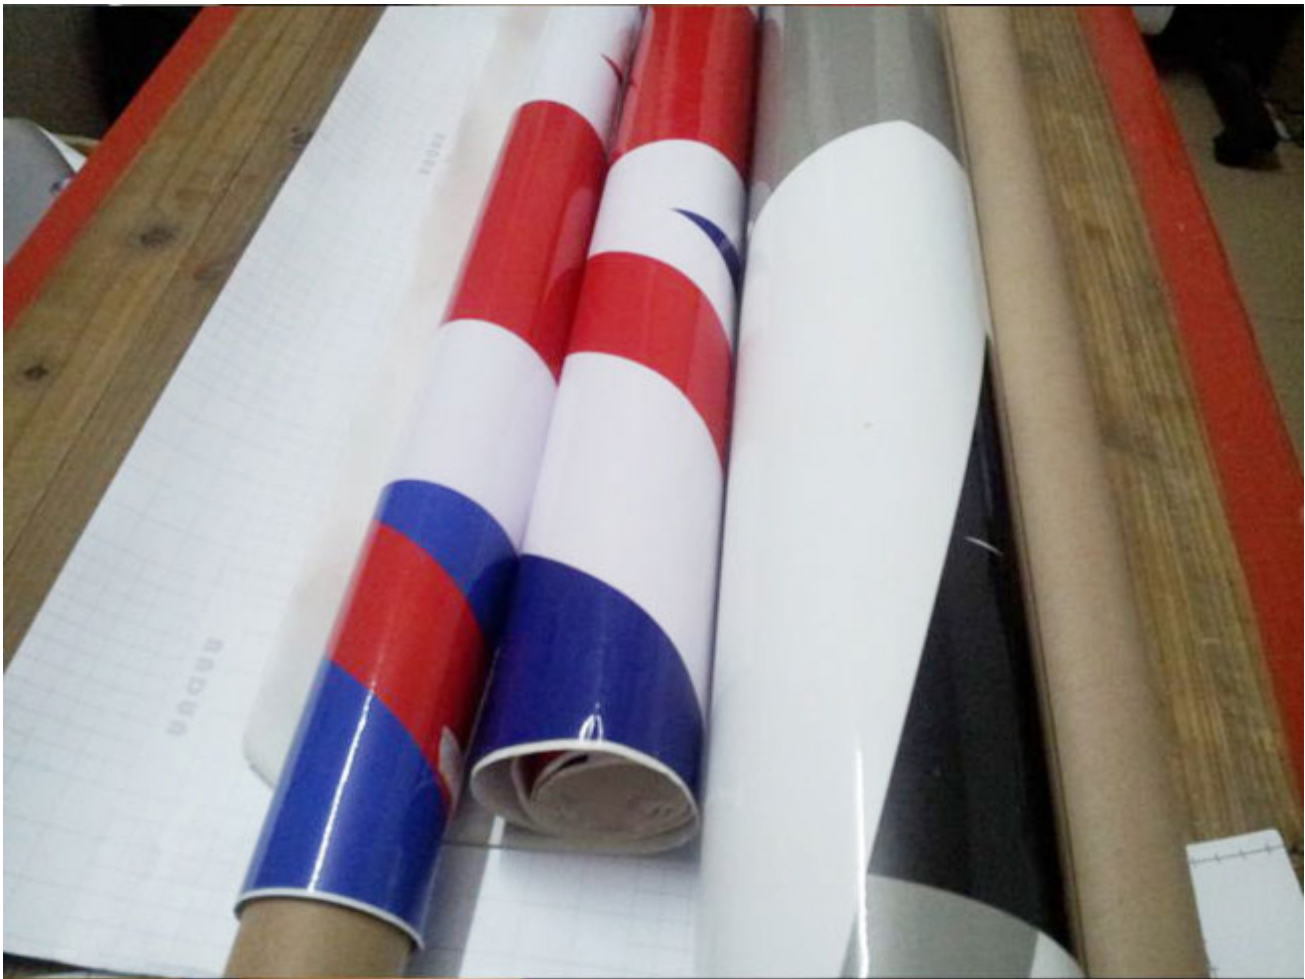

The vehicle paster has high sun-resistant performance, the color effect of common materials against solarization can last at least more than three years, and it does fade, crack, oxidize, etc

The vehicle paster is also called stickers, but they are not ordinary paper. The vehicle pasters are made of high quality PVC materials as basic raw materials which have excellent waterproofness, and you totally no need to worry it to be damaged from washing and raining.

Bubble-free self-adhesive vinyl film/vehicle paster
The lines in the photo above are air paths.
