Usage

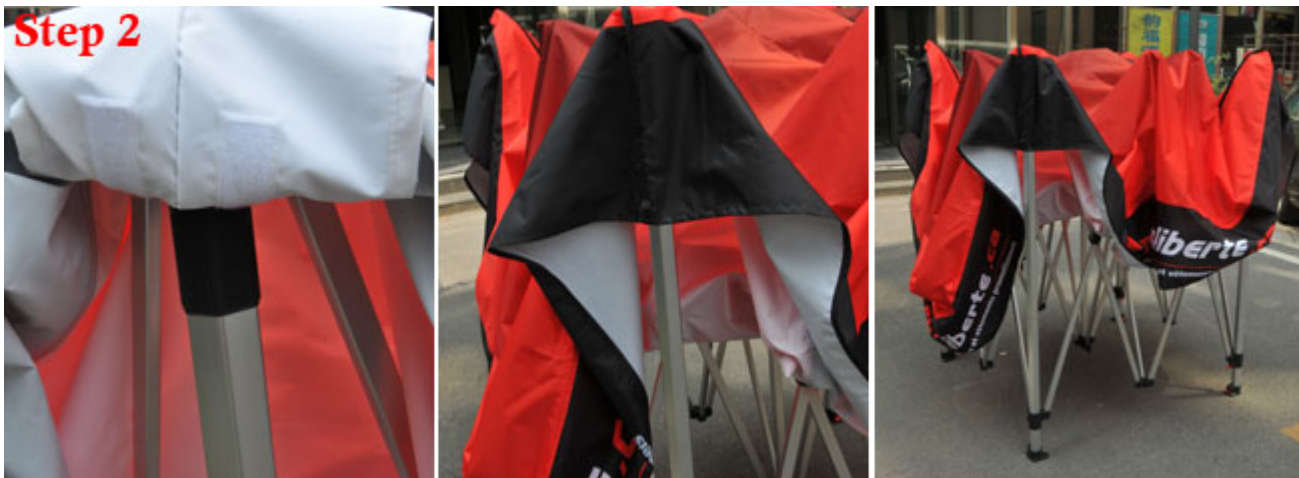

Step 1

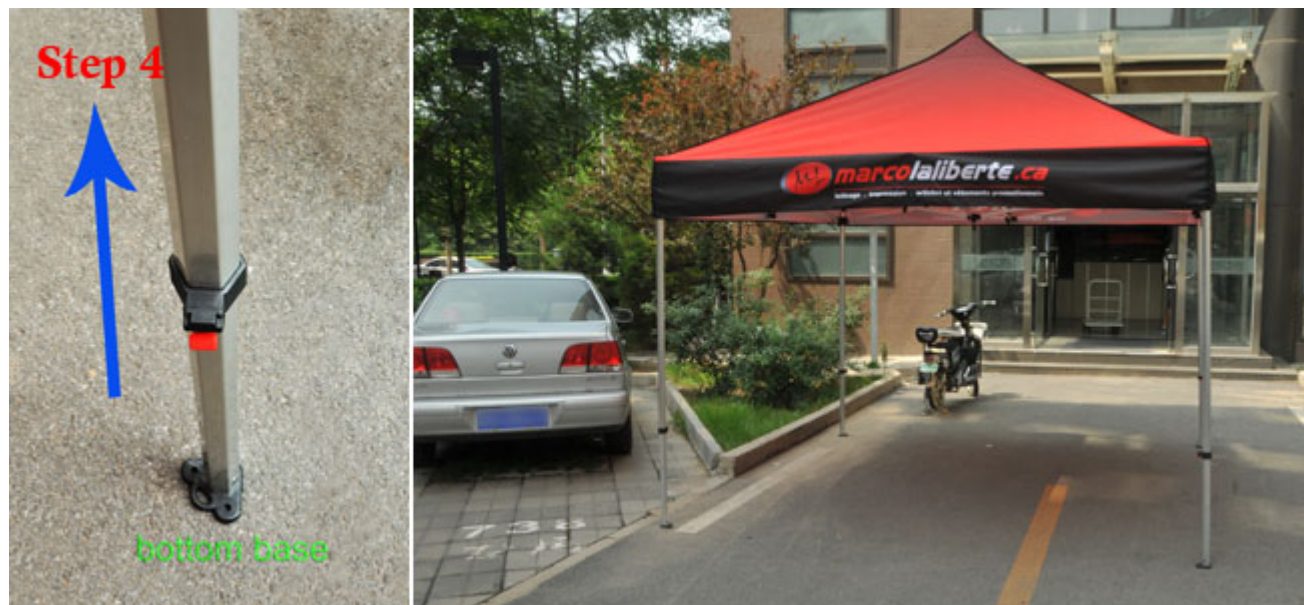

1. Firstly, take out tent frame and tent cloth out from the carton boxes and gently extend the frame to about 50%.

Please note: do not use knife for unpacking in case of the cloth inside will be cut.

2. Put the tent cloth on top of the aluminum frame and make the cloth corners aligned four feet of the frame, and then snap Velcro.
3. Make the frame 95% open.

4. Step on the bottom base and hold the middle of aluminum foot with both hands; raise the lower tube until the nipples of tube automatically come out and buckle up, and do the same operation on the upper tube to adjust to proper height.

Note: If there were any stand of the frame bended or distorted, you should immediately stop using the tent/canopy unless it is maintained and fixed.

Application

This canopy is a quick and easy-to-set-up, pop-up shelter. Its frame is made of aluminum and offers great strength and value. It is perfect for craft fairs, sporting events, concerts, parks and camp sites, as well as any other outdoor activity.
