Overview

- High density of heating board.
- Digital control panel.
- Affordable, better printing effect.
- Spring-Add device and a thicker heating board guarantee a perfect print.
- Real-time display of temperature condition with an automatic alarm.
- Easy to adjust the pressure and easy to operate.
- Improved structure of pressure ensures the evenness of pressing the materials.

Description:

This type of heat transfer machine is manufactured with a European style including a thickened heating board, which features the advantages of the former heat press machines combined with a newly developed structural design. The improved outlook is more attractive. The highlight of this machine is the improved pressure structure to ensure an even pressing, in order to get better results at work.

Application:

It is widely used in t-shirts, bags, pants and similar materials that are made of textile, knitting, non-woven, chemical fiber or cotton components. It can also be used in metal sheets and adornments.

Specification Form							
Working Size	Voltage	Power	Tem. Range	Time Range	N.W.	G.W.	Packing Size
15.0"×15.0" (380×380mm)	220V/110V	1400W	0 - 399 °C	0 - 999 sec	66.1lb (30kg)	78.3lb (35.5kg)	29.5"×19.3"×18.9" (754×494×480mm)
16"×20" (406×508mm)	220V/110V	1400W	0 - 399 °C	0 - 999 sec	77.2lb (35kg)	92.6lb (42kg)	29.1"×22.0"×19.7" (740×559×500mm)

Remark: Different grades of heating panels can be provided, according to customers' requirements.

Notice: Color of the machine is variable, and the color is random according to the ones in stock when you buy the machine. Certainly, you can choose the color we have made but need time to finish if it's not in stock. Also, you can customize the color you like but need extra cost and large order.

Warranty and after-sale service

One year warranty; spare parts do not apply.
 24-hour technical support via email or telephone.
 User-friendly English manual, explains how to operate the machine and the required maintenance.
