### Overview

- . Thicker heating panel with competitive price.
- . Digital control by the SCM program PID operation PWM way of output, all of which prolong the life-span and save power.
- . Double LED display dashboards display time and temperature seperately.
- . Easy to operate and maitain.

#### Description:

This Manual heat press is the machine that presses image onto an imprintable substrate. It adopts digital control technology and double LED display dashboards and uses thicker heating panel but competitive price. Using high temperatures and pressures for a certain amount of time, the transfer is permanently embedded into `the` product, which is recommended for its professional and perfect transferring effect.

**Notice: Color of the machine is variable, and the color is random according to the ones in stock when you buy the machine. Certainly, you can choose the color we have made but need time to finish if it's not in stock. Also, you can customize the color you like but need extra cost and large order.**

#### Application:

This Manual heat press Machine is widely used in transferring image to table cloth, T-shirts, bags, pants and others with flat surface which are made of textile, knitting, non-woven, chemical fibre or cotton materials, and metal sheet, adorment, etc.

#### Guarantee & Aftersales Service

Comprehensive guarantee for one year except the wearing parts.

24-hour technical support by email or calling.

User-friendly English manual for machinary using.
