### Overview

- . 15"×15" Telfon coated heat platen.
- . Spring system added for even pressure.
- . Real-time display of temperature condition with automatic alarm.
- . Over-center pressure adjustment for easily to adjust the pressure.
- . CE approved.

#### Description:

This type of Heat Press Machine is stable and durable, which has the advantages of the former heat press machines with the new developed style. The improved outlook is more attractive. The four corners of the machine are all curved to avoid getting hurt by the sharp corners during carrying. The base of the machine is more stable. You can put it on the table top or fix it onto the table top by screws. The highlight of the machine is that it uses improved structure of pressure to ensure the evenness of pressing, thus enables all kinds of transferring with high requirement.

#### Application:

It is widely used in transferring T-shirts, bags, pants and others which are made of textile, knitting, non-woven, chemical fibre or cotton materials, and metal sheet, adornment, etc.

**Notice:** Color of the machine is variable, and the color is random according to the ones in stock when you buy the machine. Certainly, you can choose the color we have made but need time to finish if it's not in stock. Also, you can customize the color you like but need extra cost and large order.

#### Remark:

We could provide different heating panels with different prices according to customer's requirement.

#### Guarantee & Aftersales Service

Comprehensive guarantee for one year except the wearing parts.  
24-hour technical support by email or calling.

## Details
