Overview

The Flat Blades

There are 6 flat blades in the slot;
All the blades are made from high
quality medium carbon steel;
Through precision electroplating,
the blade is sharp and durable.
Blades size: 60mm x 19mm

Tips: You can also buy a whole box of blades on
our website, and there are 10pcs in 1 parcel.

Double functions

Flat blade

You can put this two blades into one slot, and there is no need to carry two knives.

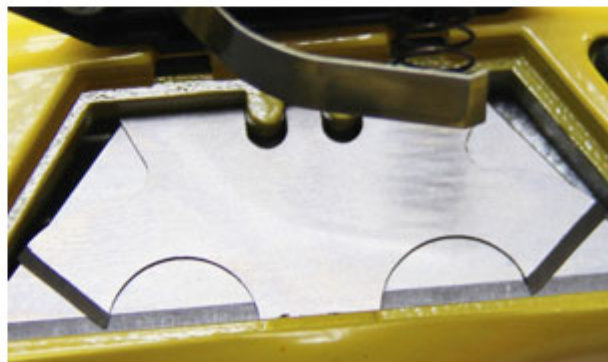

Hook blade

Blade placement

You can put 10 blades into the slot at most, and the common blades and hook blades can be put together.

Automatically Change Cutters

Pull out the blade: one hand press the red button, and the other hand pull out the blade.

Push out the blade: After pulling out the blade, you can reset the button to its original place, and then push out the blade.

Warm tips:

1. If the hook blade gets stuck, you can open the slot or reinstall the blade;
2. **Blade retractable button:** you can choose the length of retractable blade according to the thickness of cutting materials.
