Overview

- Pneumatic heat press machine works automatically.
- Four working tables for high efficient works.
- Air pressure coordinates with motor could make the working table be changed automatically.

Description:

This pneumatic heat press machine combines air pressure with moto power to work automatically. It needs air compressor additionally to get power. The heat press has four working stations which can be turned one by one automatically to improve the working efficiency. It's especially suitable for bulk garment transferring. It's widely used for T-shirts, coat, pillowcase, table cloth, metal sheets, tiles, etc.

Notice:

The case in which the machine is stored is available in different colors, which can be chosen according to your preference, as long as they are in stock. The machine color can be ordered, although a waiting period and an additional charge should be taken into consideration. This applies only to bulk orders.

Warranty and Aftersales Service

Comprehensive warranty for one year except the wearing parts.
24-hour technical support by email or calling.
User-friendly English manual for machinery using.
