Overview

Voltage (v): 220/110

Temperature range(?): 0-399

Time control (s): 0-999

- . The high quality digital controller makes it more easy to operate.
- . Swing-Away design for more working space.
- . Split type, time and temperature display are design seperately.
- . Reckon by time and countdown are both ok.
- . The mechanical tructure is simple and practical and handles easily, which prevents to hurt your hand.
- . The maintainance is also easy, because all the control circuits are concentrated in a small box, which makes it easy to replace when it is broken.

Descriptions:

The Head-shaking heat press machine is smart style which could press a transfer onto an imprintable substrate. The heating board could be shaken when work that could ensure enough space for operation. Using high temperatures and pressures for a certain amount of time, the transfer is permanently embedded into `the` product. It is widely used for T-shirt, key-chains, metal sheet, ceramic, etc.
