Инструкция

1. Printing UV PET steel film

- Print the graphics at one location and dispatch to chain stores for installation.

2. Transporting and storage

- Roll the UV PET steel film graphic with printing face out, and put it in a tube for transporting or storage.
- Storage the UV PET steel film graphics at 4°C-30°C.

3. Pre-cut and install the Wall-Mag

- Wall-Mag is compatible for all flat, clean and smooth surfaces, including curved and column surface.
- Pre-cut the Wall-Mag for small graphics area.

4. Install UV PET steel film graphics

- Align the graphics with the Wall-Mag and slightly roll it down.
- Sweep over the graphics by hand to ensure perfect attachment.
- Graphics can be easily installed by store personnel at any time.
