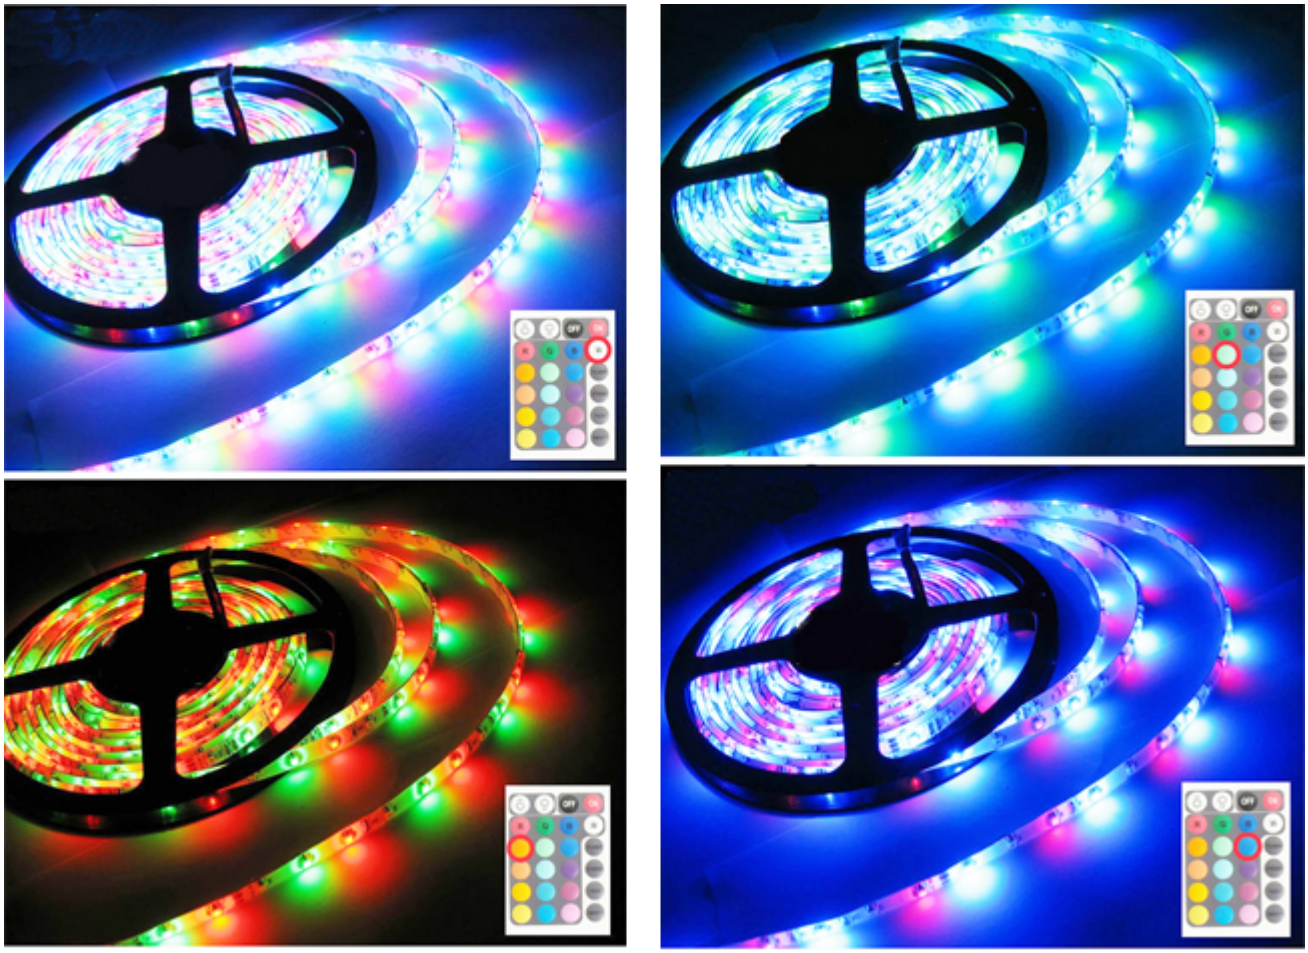
• Each 3LEDs (3 different colors R, G, B) as lighting group to chase one after another
• Waterproof with silicon on surface protection for outdoor use
• Flexible with 3M adhesive tape on back, plug-in connector on both ends
• Controllable by compatible IR remote, more lighting facts available

Specification:
• **Voltage:** 12V DC
• **Current:** 2 Amps
• **Beam angle:** 120 degree
• **Water proof rating:** IP-65

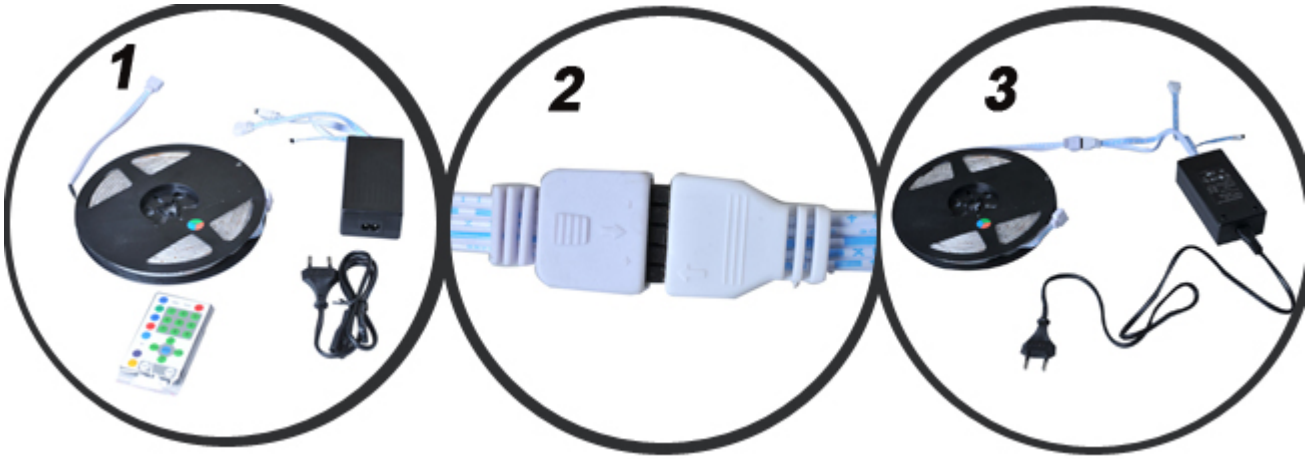
Details



Lighting facts:
Can be used as a Single Color Strip, or as a chasing effect RGB LED strip. Each 3LEDs (3 different colors R, G, B) is a lighting group, one group after another, like each 3 LEDs chase after their prior ones at adjustable speed, making this strip like a flowing water. For lighting video on YouTube, please search for "3528 RGB" by TorchStar.

Usage

This 16.4ft /5M LED strip is super easy to install. There are build-in connectors on both ends, easy to connect with each other and control unit. With 3M adhesive tape on back and its high flexibility, you can fix it to any day or narrow space, or uneven surfaces.



Application

For your variety applications, you can cut this strip according to actual need. Cut it every 3 LEDs along the golden soldering incising line.
