Overview

This air pump is special for laser cutter laser engraving machine.

Features:

- The shell is made of high quality aluminum alloy ZL102, with the streamline design, the cooling effect of the air pump is more quickly
- Using electromagnetic motor, the piston linear reciprocating generates airflow, which made the structure more reasonable.
- Cylinders and pistons are made of new wear-resistant material SF3 , which is energy saving?high exhaust volume and higher pressure
- No- oil lubrication design, compressed air is more pure

Specs:

Power: 85 (Kw)
