

(66 ??)

A large industrial paper trimmer with a red roller and a control panel on the right side. The machine is white and has a long, rectangular body. The red roller is the central component used for cutting paper. The control panel on the right includes a power switch, a red emergency stop button, and a black knob for adjusting the pressure or tension. There are also two black knobs on the top of the machine, one at each end, for adjusting the height of the rollers. The machine is designed for high-volume paper processing in a professional setting.
