Q	What is the max cutting speed by the engraver with a 100W laser tube ?
A	<p>The maximum cutting speed is 300mm / s.</p> <p>Reply by sign-in-china</p>
Q	What is the warranty?
A	<p>Comprehensive guarantee for one year except the wearable parts. Please click "Warranty" terms to know more information.</p> <p>Reply by sign-in-china</p>
Q	The total cost of all additional(Optional Device) equipment in the kit?
A	<p>There are penholder rotary fixture, cylinder rotary fixture, three-jaw rotary fixture for your optical, more information, please read the website for detailed information.</p> <p>Reply by sign-in-china</p>
Q	What is the maximum height of the workpiece it supports?
A	<p>Its maximum lifting height can be up to 350mm (13.78").</p> <p>Reply by sign-in-china</p>
Q	For this laser did we need to add gaz bottle??
A	<p>No, this is CO2 laser tube, the old laser tube should be replaced of a new one when its life is ended.</p> <p>Reply by sign-in-china</p>
Q	Is gas of this laser tube refillable?
A	<p>No, the gas isn't refillable, you need to change a new tube when its life is finished.</p> <p>Reply by sign-in-china</p>
Q	How to judge the life of laser tube is over?
A	<p>The laser's power will reduce gradually while using. When the maximum power can't carve deep enough, please change the laser. In fact, when the laser is all right, light beams in the tube are pink- purple, when it is near to be finished, the light changes to white.</p> <p>Reply by sign-in-china</p>
