Overview

Introduction:

Type3 CAD/CAM Engraving Software, 2D/3D Version for Industrial and Artistic Applications

It is a special version of Type Edit, the leading artistic CAD/CAM solution available to our partners.

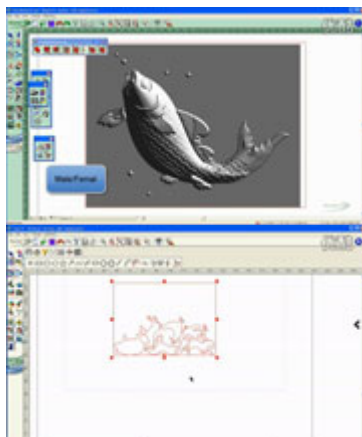

Available in English and Mandarin Chinese, which is your best replacement solution to our former entry product and all stars classic: A completely integrated solution, Type Edit provides powerful 2D, 2.5D and 3D CAD and CAM modules to tackle any job you will face in the sign and engraving industry?

The 2D CAD Graphic Design module permits you to create new designs as well as modify imported images and drawings. Its extensive tools and wizards enable you to manipulate any element of your design and create the desired effect for your creations.

With 3D Art, the 3D artistic sculpting and engraving module, creating intricate designs is simple with our intuitive design tools.

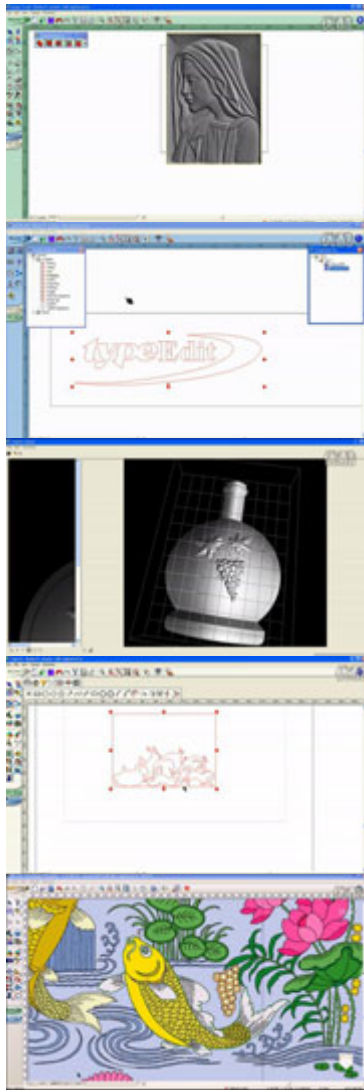

Type Art' s user-friendly interface encourages you to unleash your imagination. The Type Edit CAM module provides market-proven machining strategies that give you unmatched machining quality and efficiency.
