Overview

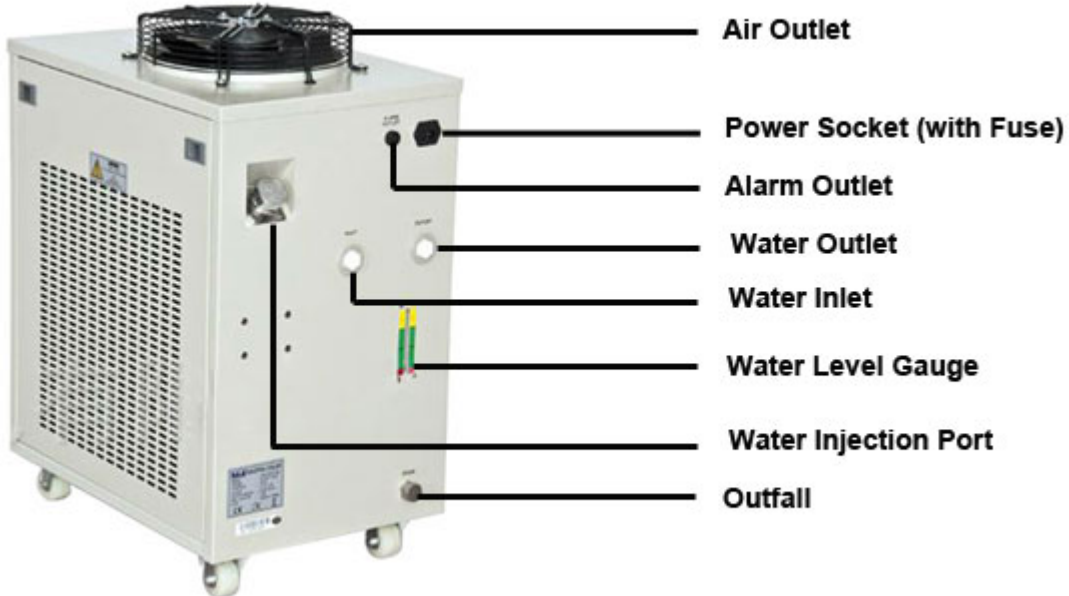

Product Description:

The S&A CW-5300 industrial chiller is a compact, efficient cooling solution for various industrial applications. It features a robust design with a large condenser fan on top and a side-mounted condenser coil. The unit is equipped with a digital display and control panel on the front. It is designed for easy installation and maintenance, with a compact footprint and a sturdy base. The chiller is suitable for use in a wide range of environments, from industrial settings to commercial applications. It provides reliable cooling performance and is built to last.

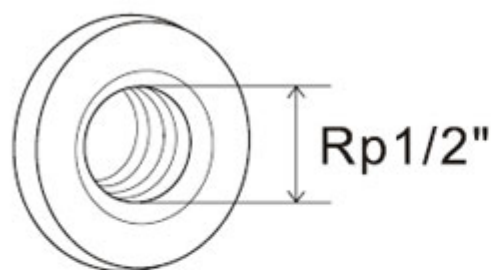

Technical Specifications:

- Cooling Capacity: 1800W;
- Power Consumption: 1.5kW ±0.3W;
- 2 Year Warranty: The chiller is covered by a 2-year warranty, which includes labor and parts. The warranty is valid for the entire life of the unit.
- Efficiency: The chiller is designed for high efficiency, with a COP of 3.0. It is suitable for use in a wide range of environments, from industrial settings to commercial applications.
- Safety: The chiller is designed with safety in mind, featuring a robust design and a large condenser fan. It is built to last and is suitable for use in a wide range of environments.
- CE; RoHS: The chiller is certified to CE and RoHS standards, ensuring it is safe and environmentally friendly.
- The chiller is designed for easy installation and maintenance, with a compact footprint and a sturdy base.
- The chiller is suitable for use in a wide range of environments, from industrial settings to commercial applications.
