Overview

Product Description:

The CW-6100 is a compact, industrial-grade chiller unit designed for cooling various electronic components and equipment. It features a robust metal casing with a large fan on top for efficient heat dissipation. The unit is equipped with a digital display and control panel on the front, allowing for easy monitoring and adjustment of temperature settings. It is suitable for use in a wide range of environments, from laboratories to manufacturing facilities. The CW-6100 is known for its reliability and energy efficiency, making it a popular choice for industrial cooling applications.

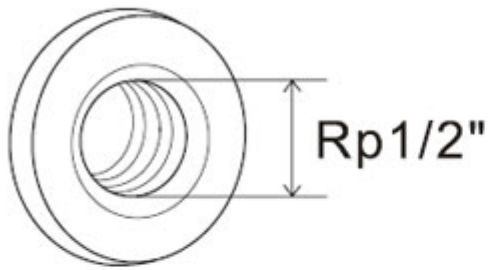

Technical Specifications:

- Cooling Capacity: 4200W;
- Temperature Control Range: $\pm 0.5^{\circ}\text{C}$;
- 2 Temperature Control Zones: Independent temperature control for two separate zones, allowing for precise cooling of different components.
- Safety Features: Overheat protection, low oil level alarm, and other safety features to ensure reliable operation.
- Compliance: CE, RoHS;
- Dimensions: 400mm (W) x 400mm (D) x 400mm (H);
- Weight: 212.9lb (96.79kg).

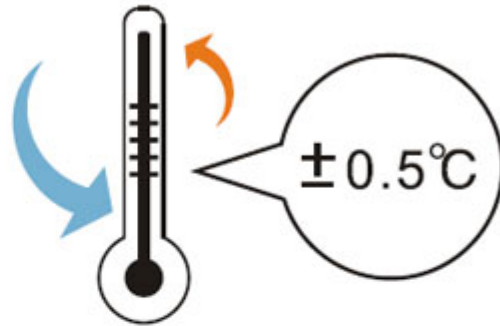

Package:

Inlet and outlet

Precision

Protection

Overcurrent protection
for compressor

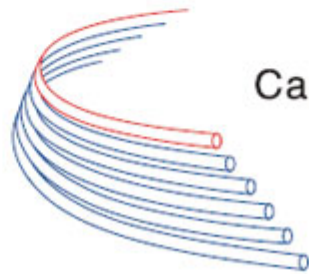

Flow alarm

Over temperature
alarm

Reducer

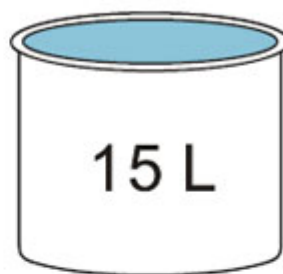

Capillary

Refrigerant

R-22 / R-410a

Tank capacity

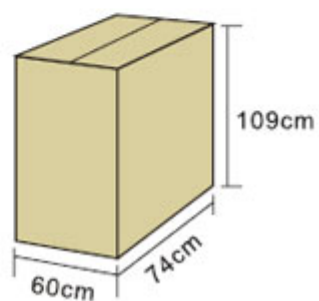

Product dimension

67 X 47 X 89cm (L X W X H)

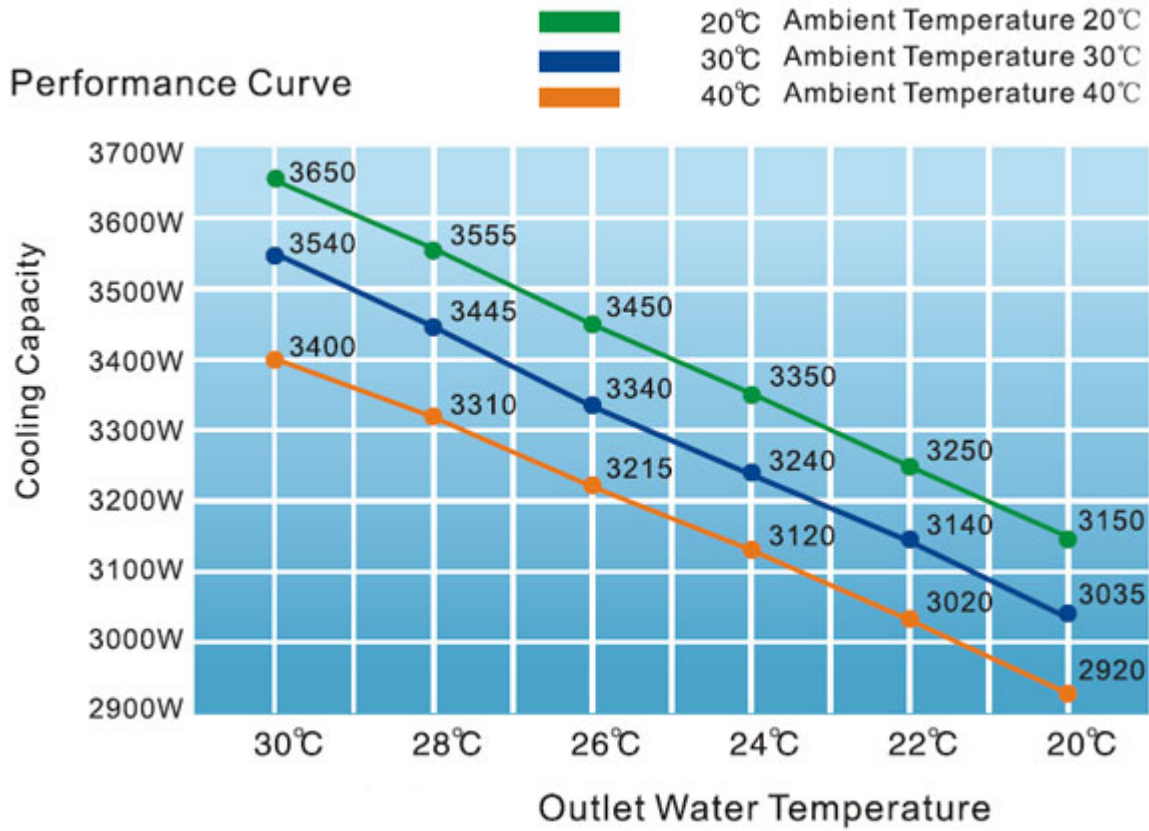

Package dimension

74 X 60 X 109 cm (L X W X H)
