**Digital Printing** ➤

Vibrant Color, Clear Picture.

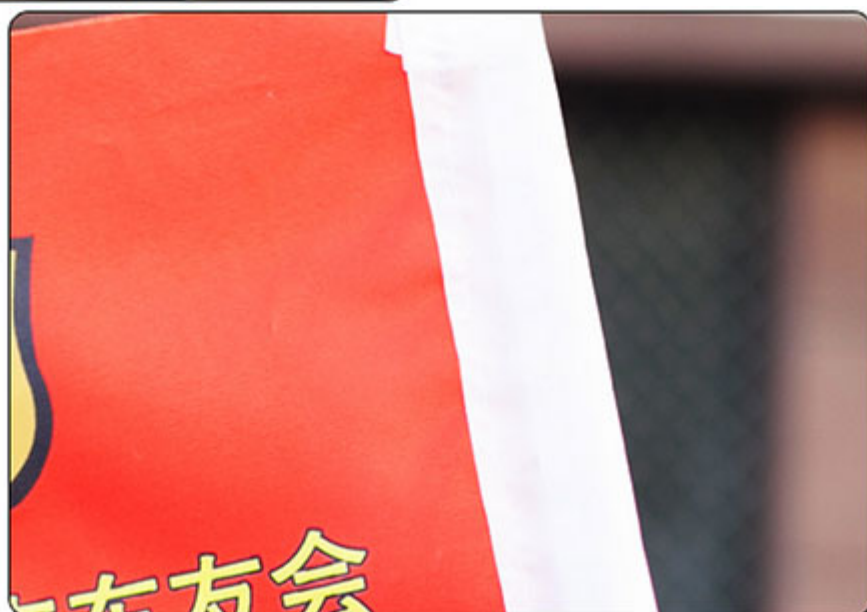

#### ⌂ Rigid Plastic Hook

Easy to remove, reusable.

#### White Flag Edge ⌂

To link the flag and flagpole

### Equipment and technology

#### Digital Jet Printing

It is used mainly to make flags for factory, office, tour guide, government, school class, and also the signal flags, dragon flags, national flags of the world, beach flags, vehicle flags and activity banners etc. Its advantages are beautiful in color and possible to make flags with gradually changing color.

## Fabric Introduction

The polyester pongee is specially used for single surface printing and double-side infiltration. It solves the color limitation in traditional printing. No matter how many colors including changing-colors on the flag, it can always print out the real colors. Please pay attention, the double-side infiltration effect of digital jet printing has tiny color difference on its front and back side.
