### Overview

#### Description:

Removable vinyl is a 100 micron calender soft pvc film with 140gsm special lay flat liner, available in gloss and comes with a removable adhesive. They are particularly suitable for exhibition displays, shop signs and advertising/promotional campaigns.

#### Features:

- 1) PVC vinyl is equipped with excellent absorbency and great color permeability, which can output the best printing images.
- 2) Usually speaking, we will use imported solvent glue to manufacture PVC vinyl to make sure its high quality and stability. Meanwhile, we will also adopt progressive manufacturing technique to ensure that there are no adhesive residue left or adhesive failure problems.
- 3) A intermediate calendered film (100 um) with a removable, positionable adhesive for easy application.

#### Application:

Suitable for application on to flat surface.  
Vehicle advertising, commercial sign, displays.  
Curtain wall & Glass advertisement.  
Car decoration.
