## Overview

Small Size Metal Channel Signs Making Starter Sets(Include bender, aluminum coil, LED Module, power supply)

Here is a list of items included in this package:

### Small Size Pneumatic Bending Slot Cutting Machine Tools for Metal Channel Letters

#### Description:

Processing Material: Aluminum, Iron, Steel, Acrylic, PVC

Max Cutting Width: 15cm (5.9")

Max Cutting Thickness: Adjustable & No limited

Cutting Way: 90 degree & V-Cutting

Click here for more details: [http://www.sign-in-china.com/products/14466/small\\_size\\_pneumatic\\_bending\\_slot\\_cutting\\_machine\\_tools\\_for\\_metal\\_channel\\_letters.html](http://www.sign-in-china.com/products/14466/small_size_pneumatic_bending_slot_cutting_machine_tools_for_metal_channel_letters.html)

### Luxury Manual Acrylic Letter Making Bending Machine Tool, A+U Type

#### Description:

Processing Material: Acrylic, Plastic, PVC, Plexiglass

This Luxury Manual Acrylic Letter Making Bending Machine Tool, A+U Type is ideal for LED Acrylic Lighting Channel Letters making.

It is suitable for heating acrylic within 1.5mm-4mm (0.06" x 0.16") thickness.

Click here for more details: [http://www.sign-in-china.com/products/14469/luxury\\_manual\\_acrylic\\_letter\\_making\\_bending\\_machine\\_tool\\_a\\_u\\_type.html](http://www.sign-in-china.com/products/14469/luxury_manual_acrylic_letter_making_bending_machine_tool_a_u_type.html)

### Metal Channel Letter Bender Bending Pliers Tool

#### Features:

This metal channel letter bender can improve production efficiency;

This bending plier is convenient to use for welding workers, which makes welding operation much easier to learn;

It is mainly used in stainless steel and iron welding as well as in engrooved aluminum edge.

Click here for more details: [http://www.sign-in-china.com/products/16015/metal\\_channel\\_letter\\_bender\\_bending\\_pliers.html](http://www.sign-in-china.com/products/16015/metal_channel_letter_bender_bending_pliers.html)

### 120W Handhold Welding Tool Electric Soldering Iron for Welding Metal Channel Letters, 110-240V

#### Description:

New Electric Soldering Iron for Welding Metal Channel Letters is an essential tool cooperatively used with grooving machine. The new generation of New Electric Soldering Iron for Welding Metal Channel Letters is innovated and adopted electric heating temperature heating which completely changes the traditional method of calcining furnace heating letters and makes the work easy and quick from messy and difficult, and also it materially improves work efficiency.

This product is suitable for advertising making, metal letters, acrylic letters, and decorations. This product is exquisite, easy to use with simple operation and without working site limitation; easy to learn and use; cost minimized, effect optimized, and benefit substantially reaches saving of energy, time, consumption. We believe introducing this product will benefit users and get popular quickly with further excellent contributions for advertising, decoration, and other related industries.

### Mini Portable Metal Letters Bender Bending Tools for Iron Letters, A Type Right Angle Bender

#### Description:

• This metal letters bending tool is made to solve problems of time-consuming and laborious in manual bending metal letters. It effectively solved problems existed in bending metal sheet.

- It can bend metal sheets quickly and accurately, save time and effort, and improve production efficiency.
- It can bend metal sheets quickly and accurately (It will attain the best effect if you use with CS-MBBT-001 metal slot bender).

**Click here for more details:** [http://www.sign-in-china.com/products/16038/mini\\_portable\\_metal\\_letters\\_bender\\_bending\\_tools\\_for\\_iron\\_letters\\_a\\_type\\_right\\_angle\\_bender.html](http://www.sign-in-china.com/products/16038/mini_portable_metal_letters_bender_bending_tools_for_iron_letters_a_type_right_angle_bender.html)

### Mini Portable Metal Letters Bender Bending Tools for Iron Letters, U Type Rounded Angle Bender

#### Description:

• This metal letters bending tool is made to solve problems of time-consuming and laborious in manual bending metal letters. It effectively solved problems existed in bending metal sheet.

- It can bend metal sheets quickly and accurately, save time and effort, and improve production efficiency.
- It can bend metal sheets quickly and accurately (It will attain the best effect if you use with CS-MBBT-001 metal slot bender).

### Metal Channel Letter Punch Plier (3.5mm and 4.2mm Dia. Hole Changeable)

#### Features:

- Automatic stripping facilitates use and operates more efficiently. The automatic stripping spring is installed on the punch. When punching metal plates, you can slightly let go, then the handle will automatically reset and the punch bit will automatically strip the metal.
- The Third Generation Metal Stud Punch can punch smooth and neat holes without any burrs, which is the necessary punch for making fine metal words.
- The punch and die are made from tungsten steel alloy. The thickness of exposed part of the punch die is 2.5mm. In macro experiment, punch and die can punch 120 holes in one minute without any wear and tear.

**Click here for more details:** [http://www.sign-in-china.com/products/16000/metal\\_channel\\_letter\\_punch\\_plier\\_3.5mm\\_and\\_4.2mm\\_changeable.html](http://www.sign-in-china.com/products/16000/metal_channel_letter_punch_plier_3.5mm_and_4.2mm_changeable.html)

### Manual Glue Gun for AB Adhesive Glue Including 1 Glue Cylinder and 2 Combining Nozzles

#### Features:

- This glue gun is very comfortable;
- the internal jammed board is made of hard metal;
- Lightweight and durable;
- Easy operation and very clean;
- Time-saving and labor-saving, in accordance with the operation requirement of artificial glue.

**Click here for more details:** [http://www.sign-in-china.com/products/15976/manual\\_glue\\_gun\\_for\\_ab\\_adhesive\\_glue\\_including\\_1\\_glue\\_cylinder\\_and\\_2\\_combining\\_nozzles.html](http://www.sign-in-china.com/products/15976/manual_glue_gun_for_ab_adhesive_glue_including_1_glue_cylinder_and_2_combining_nozzles.html)

### Super Strong Neodymium Round Cylinder Magnet

#### Features:

- These cylinder magnets have super strong magnetic force, and can be used to fasten the shapes of ad letter signs (including signs with aluminum edges and aluminum-covered plastic iron sheet signs), so as to make the plate and the section bar of signs.
- These cylinder magnets don't require so much of your skill in making letter signs, and can also lower the standards of making signs.
- Using these magnets, you can position letter signs into certain forms on an iron plate workbench.
- The reserved hole in each magnet is used for you to take out the super strong magnet. You can take it out only by using a prize with some force.

**Click here for more details:** [http://www.sign-in-china.com/products/16016/super\\_strong\\_neodymium\\_round\\_cylinder\\_magnet.html](http://www.sign-in-china.com/products/16016/super_strong_neodymium_round_cylinder_magnet.html)

### 60mm (2.4") x 50m (164 feet) Silver Folding Aluminum Coil

#### Features

- All coils are aluminum, light weight and durable;
- Good weathering resistance, never rust;
- Used for making Dimensional Sign Letter;
- Double fold design in top edge for letter face attached. No need trim-cap anymore;
- Paint Spray.
- Can adhesive the letter face instantaneously by 502 super glue after inside surface special treatment;
- Simply, easily and quickly to make sign letters.
- Apply to all kinds of Channel Letter Benders.

Click here for more details: [http://www.sign-in-china.com/products/14831/60mm\\_2\\_4\\_quot\\_x\\_50m\\_164\\_feet\\_silver\\_folding\\_coil.html](http://www.sign-in-china.com/products/14831/60mm_2_4_quot_x_50m_164_feet_silver_folding_coil.html)

### SMD 2835 Waterproof LED Module (3 LED Chips with Optical Lens, 0.72W, L70 x W16 x H7mm)designed for Internal Illumination Of Signs

**Description:** Target at the middle and end light sources used on identification;adopting the chips manufactured by famous high brightness,large emitting angle,low thermal resistance, and low light decay,high uniformity of the emitting color,using copper wire and designing by low thermal resistance to ensure the steady current and lower the heat; reasonable circuit convenient to install and wiring regulation, life span over 30000 hours, power supply at constant 12V DC; safety, energy saving friendly. High power 2835SMD LEDs 3 LED Chips with Optical Lens, 170 Degree, beam pattern, Double sided adhesive for wires between each module.

Click here for more details:[http://www.sign-in-china.com/products/15427/smd\\_2835\\_waterproof\\_led\\_module\\_3\\_led\\_chips\\_with\\_optical\\_lens\\_0\\_72w\\_l70\\_x\\_w16\\_x\\_h7mm\\_designed\\_for\\_internal\\_illumination\\_of\\_signs.html](http://www.sign-in-china.com/products/15427/smd_2835_waterproof_led_module_3_led_chips_with_optical_lens_0_72w_l70_x_w16_x_h7mm_designed_for_internal_illumination_of_signs.html)

### 150W AC100V-240V to DC 12V 12.5A Metal Shell Waterproof LED Power Supply Transformer Driver for LED Module or Bar

#### Features:

- Power Supply
- Input Voltage: 100-240V AC 50/60Hz
- Output Voltage: 12V DC 12.5A
- Waterproof Rating: IP67

Click here for more details: [http://www.sign-in-china.com/products/17856/150w\\_ac100v\\_240v\\_to\\_dc\\_12v\\_12\\_5a\\_metal\\_shell\\_waterproof\\_led\\_power\\_supply\\_transformer\\_driver\\_for\\_led\\_module\\_led\\_strip\\_or\\_bar.html](http://www.sign-in-china.com/products/17856/150w_ac100v_240v_to_dc_12v_12_5a_metal_shell_waterproof_led_power_supply_transformer_driver_for_led_module_led_strip_or_bar.html)
