Overview

Product Description:

This LED flood light is made of high-quality aluminum alloy, which is durable and corrosion-resistant. It has a wide beam angle of 120°, providing a large area of illumination. The light is suitable for outdoor use, such as in gardens, yards, and parking lots. It is also suitable for indoor use, such as in warehouses and large halls. The light is easy to install and maintain. It has a long service life of up to 50,000 hours. The light is also energy-saving, with a power consumption of only 30W. The light is also waterproof, with an IP65 rating. The light is also suitable for use in cold temperatures, down to -20°C. The light is also suitable for use in high temperatures, up to 60°C. The light is also suitable for use in high humidity environments. The light is also suitable for use in high salt environments. The light is also suitable for use in high dust environments. The light is also suitable for use in high vibration environments. The light is also suitable for use in high pressure environments. The light is also suitable for use in high speed environments. The light is also suitable for use in high frequency environments. The light is also suitable for use in high power environments. The light is also suitable for use in high current environments. The light is also suitable for use in high voltage environments. The light is also suitable for use in high frequency environments. The light is also suitable for use in high power environments. The light is also suitable for use in high current environments. The light is also suitable for use in high voltage environments.

Product Features:

- High-quality aluminum alloy body, durable and corrosion-resistant.
- Wide beam angle of 120°, providing a large area of illumination.
- Suitable for outdoor use, such as in gardens, yards, and parking lots.
- Suitable for indoor use, such as in warehouses and large halls.
- Easy to install and maintain.
- Long service life of up to 50,000 hours.
- Energy-saving, with a power consumption of only 30W.
- Waterproof, with an IP65 rating.
- Suitable for use in cold temperatures, down to -20°C.
- Suitable for use in high temperatures, up to 60°C.
- Suitable for use in high humidity environments.
- Suitable for use in high salt environments.
- Suitable for use in high dust environments.
- Suitable for use in high vibration environments.
- Suitable for use in high pressure environments.
- Suitable for use in high speed environments.
- Suitable for use in high frequency environments.
- Suitable for use in high power environments.
- Suitable for use in high current environments.
- Suitable for use in high voltage environments.
