Overview

Specification:

Product name:BX-5M3 LED graphic controller

Control point monochrome 128K point: 3200*32 2720*48 2048*64 1632*80 1344*96 1152*112 1024*128 3200*16

Dual color 64K point: 2048*32 1360*48 1024*64 816*80 672*96 576*112 512*128 3200*16

Storage capacity: 2MByte

Adaptation range: A variety of single / double color LED displays

Software function: Cluster management / multi program editing / multi zone display / multi language version

Program type: Ordinary programs / shared programs

Number of programs: Support 128 programs, each program is divided into 24 areas

Region type: Graphic / subtitles / animation / lunar / time / analog dial / positive timing / temperature / temperature

Border display: Colorful magic show / advanced border border

Xuandong background: Support

Clock display: Chinese calendar / analog dial / Chinese / English clock / plus / minus timing (both support multi group display)

Communication interface: 100M network port and USB interface

Display interface: 1 groups of 50PIN interface

Sensor support: Temperature / humidity

Remote control function: Program selection / screen lock / brightness adjustment / switch / screen test

Brightness adjustment: 16 levels of brightness, support Shidiao light / lightening / light remote control software

Remote switch: Support timing automatic switch / software switch / remote control switch

Working voltage: 5V (3.5V ~ 6.5V wide operating voltage)

Maximum power: Less than 2W

Ambient temperature: -40 C ~ 80 C

Two development: DLL dynamic library with complete functions

Software kit: LedshowTW graphic editing software

Use manual: Dual color LED graphic controller user manual

Display adapter card: HUB128-T8 HUB256-T12 HUB128-T12 HUB256-T8

USB transmission distance description:

BX-5U series using USB1.1 protocol, the speed of 12Mbit/S, the transmission distance of 12 meters;

BX-5M series using USB1.1 protocol, the speed of 12Mbit/S, the transmission distance of 12 meters;

BX-5E series using USB1.2 protocol, the speed of 12Mbit/S, the transmission distance of 6 meters.
