QA

Q

I also need information like the software Rip,

A

The software of the printer is MAINTOP DTP&PS RIP . And it is also compatible with Wasatch , if you want, you could buy in your market or from us.

Q

what about your support trainings,?

A

We provide the online video service, or making file with pictures or videos with the solutions to send to our clients, even we could send the technician to the client's country immediately, so you will never worry about the aftersales issue.
