Overview

Description:

This Pneumatic Large Format Heat Press Machine is featured by its large working table and air automatic working system. It is very efficient for transferring work in advertising industry and printing industry. The working table can be pulled and pushed easily. This

machine has a reasonable and durable machinery structure for steadily using. With CE certification and 2 years warranty!

Features:

- 39" x 47" Heat Press Machine.
- Pneumatic type with double working tables.
- Large Size that s used for big size transferring work.
- Evenly heating board for better transferring effect.

Details

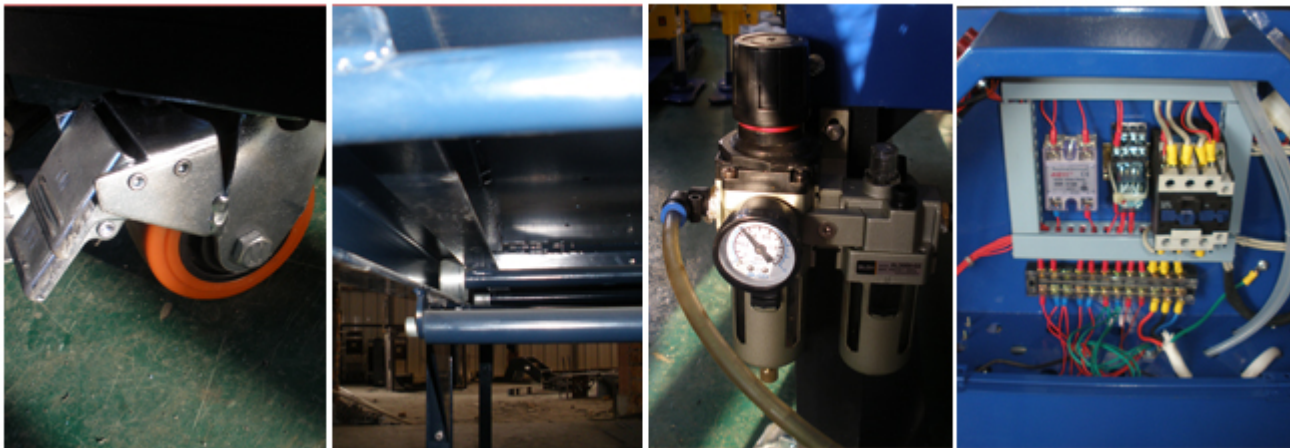

Master Switch-Cut off the electricity automatically when the electric is short circuit.

Voltmeter Voltage displayed at real time.

Display Controller-Digital display controller for easy operating.

Emergency Push Button-safety of the operator and transferring effect.

Universal Pulleys-It s very convenient and easy to move and brake the machine if necessary.

Rail-like Track-Pull and push the working table easily and freely.

Barometer-The air pressure is adjustable according to different sublimation blanks.

Inside Structure-Neat wiring and components.

Heat Platen Test:

Each Single Copper sheathed heating rod is tested before it is cast in an aluminum alloy or Mica Sheet. These heating rods are comparable to those found in industrial ovens that heat up quickly, work efficiently and last many years.

Finished Machine Test:

- 1) Turn on the machine, let it heating up to 200 degree Celsius.
- 2) Keep the temperature stay at 200 degree Celsius for at least half an hour.

Warm Tips:

Color of the machine is variable, and the color is random according to the ones in stock when you buy the machine. Certainly, you can choose the color we have made but need time to finish if it s not in stock. Also, you can customize the color you like but need extra cost and large order.

Application

This machine is widely used for T-shirts, fabric bags, pants and others which are made of textile, knitting, non-woven, chemical fibre or cotton materials, and metal sheet, adornment, etc.
