Overview

Feature:

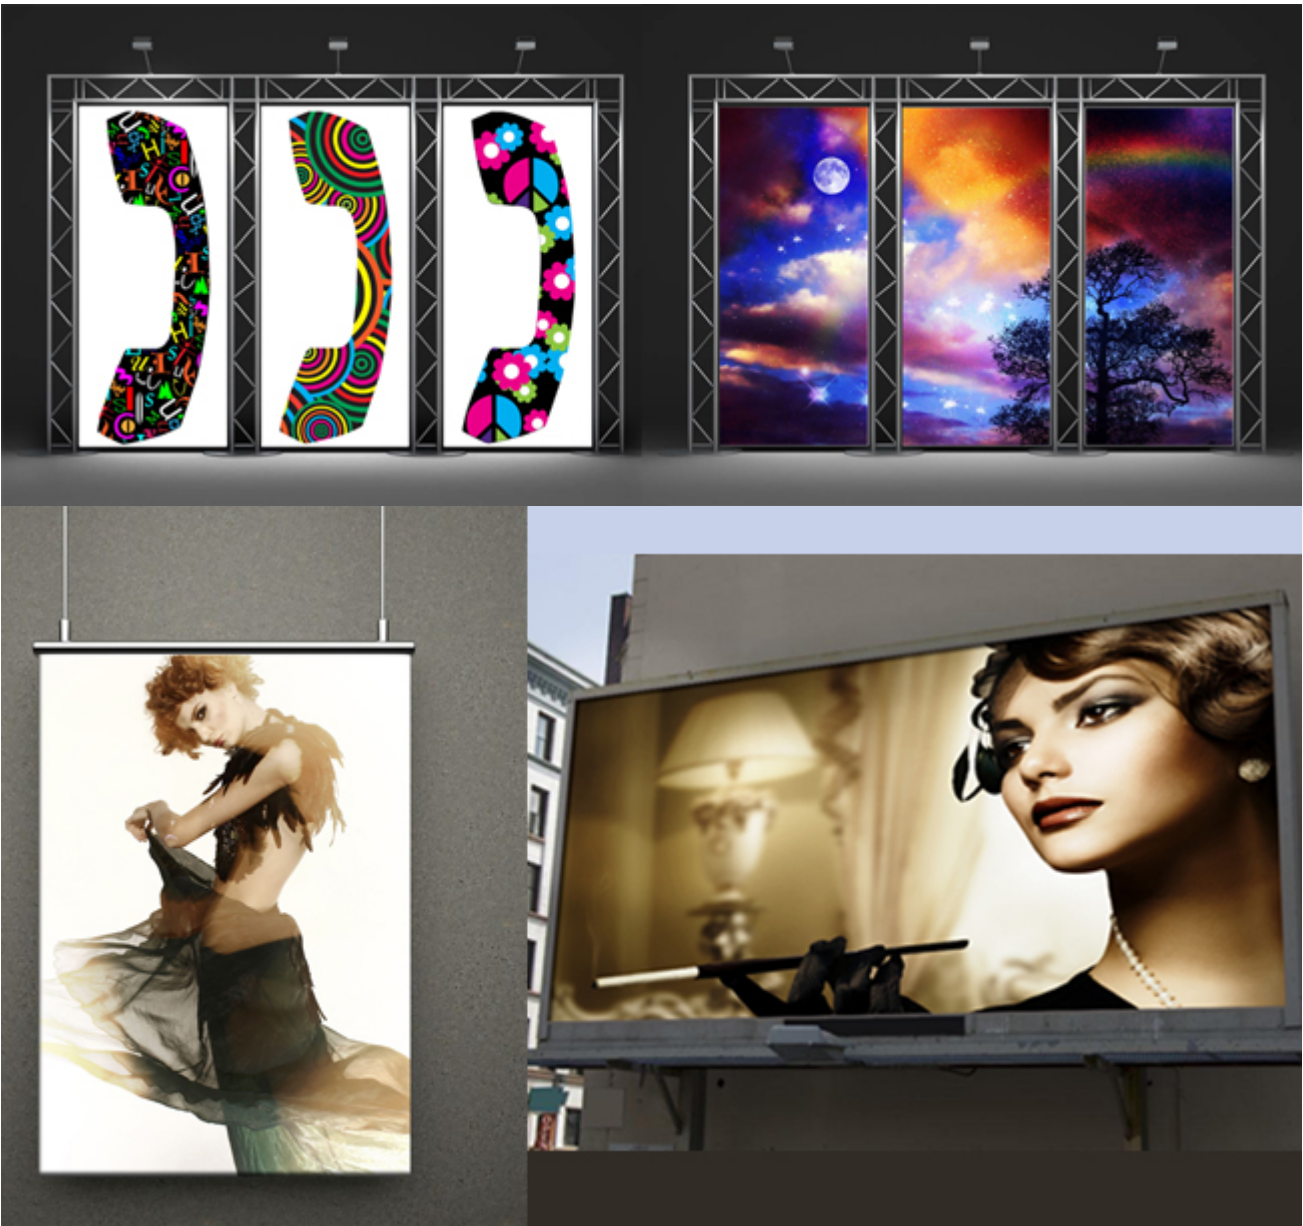

- Softer and lighter, more delicate image effect
- Using 100% chemical fiber as the substrate.
- The surface ink layer is processed by fine scraper coating process.
- Coating which added flame retardants, flame retardant properties meet the German B1 standard.
- Environmental protection, naturally degraded.
- The finished product is light, easy to carry, no cracking, a certain resilience, easy to operate, low transport costs, good light transmittance, less demanding on using environment, fabric resilience (or rely on light box pull to resilience).

Comparison:

	Textile Backlit	PVC Flex Banner
Weight	135gsm-Light for transportation and installation	300-600gsm-Too heavy
Environmental Protection	Yes.PVC Free,Recycled	No
Fire Retardant	B1 Grade FR-Suitable for public area	No
Foldable	Could be folded after printing-Save delivery cost and won't bring shadow.	Must roll package-Inconvenient
Stability	Stable in hot and cold condition,not easy cracking	Influence by temperature difference
Ink Applicable	UV,Latex	Eco-solvent

Application:

Pearl backlit Textile widely used for large light boxes at subway station, airport or shopping malls, etc.

Specifications

Width	126"(3.2m)
Length	31.5" (80m)
Material	100% Ployester
Basis Weight (g/?)	135-140
Thickness (um)	140±5%
Whiteness (%)	>85 CIE
Opacity (%)	>85%
L*a*b* Color Space	L* = 95±1.0 a*=0.5±1.0 b*=-3.0±2.0

Printer/Ink Compatibility	Compatible with all thermal and piezo inkjet printers using UV, Latex printing
