### Overview

This original manufactured UV Bulb M is suitable for Mimaki UJF-605CII printers. This is the original Mimaki bulb (part number SPC-0379 / MAN 85AL-F). There is a product warranty of one year with this UV lamp. Designed specifically for inkjet curing applications, this lamp is specifically designed for moving head inkjet printers, the shutter allows the UV exposure to be closed off as the lamp unit moves the media, greatly reducing the risk of reflected UV light causing damage to the expensive printheads. Detailed research and lengthy cycle testing has enabled a design which offers exceptional service life, eliminating unnecessary downtime and the replacement of worn components.

#### Dimension:

Arc length: 8cm

Total length: 18cm

**Printer Compatibility:** Mimaki UJF 605CII

**Bulb Model:** M-SPC-0379
