Specification:

Machine size: 35x40x60cm(L*W*H)

Power: 300W

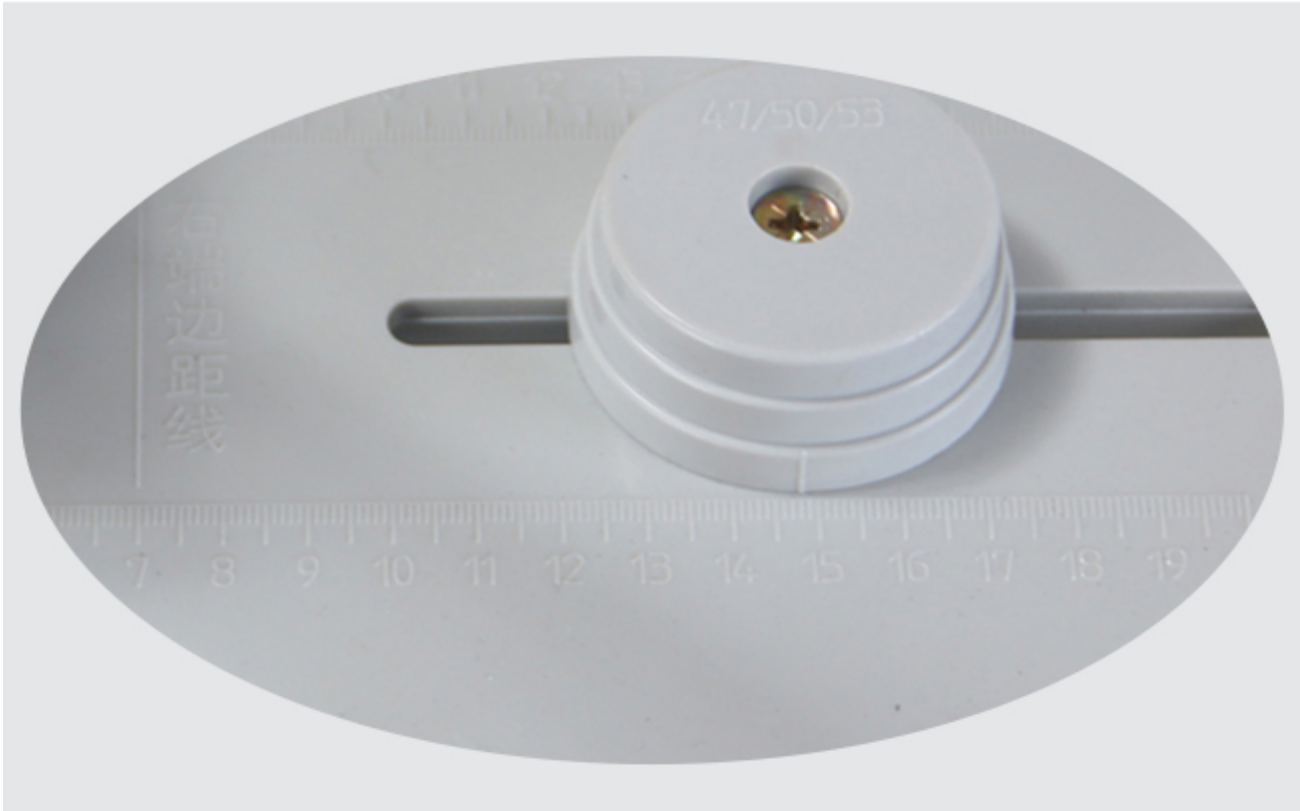

Diameter: ?4.7cm-5.3cm

Voltage: 220V/ 50Hz

Details:

THE WORKING PANEL WITH SCALE DESIGN

The working panel scale is used together with the locator, eliminating the complicated process of drawing and drawing lines!

SECURITY DESIGN

The hidden design of the cutter head greatly reduces the probability of the cutter head hurting the head! There is a secondary switch handle inside the machine, the machine will not work when it is not pressed down, which saves electricity and is safe!
