QA

Q

Give me last price and this machine have good quality?i want to use this machine every day about 24 hours,so is it working or not and maybe after 2 or 3 months stop working? please guide me.

A

Working 24 hours is ok for our heat press machine. The most important thing is that you should keep good heat dissipation in your studio to ensure no too much overheating in control box. Our machine is in CE quality certificate and have good long life span.
