- Vinyl cutting blade, long life OEM Blades
- Superior OEM blades for sharpness and durability
- Superior cutting of the most intricate designs

LOWEST PRICES - High quality blades are manufactured from China, solid carbide stock utilizing computer controlled CNC machines for precision and cutting accuracy.

P. S.: The difference between 30, 45 and 60 degree are showed as below:

The above information is for reference only, will be affect by the difference brands of material suppliers, and the rough of the blades, please note.

#### AA Series

- Be made from ultra - micron tungsten steel.
- It's a kind of precise plotting tools with high quality.
- Featuring hardness of 94 HRC and super resistance to bend, its resistance to rub and stability are superior to other solid carbide materials.
- Because of the high cost of the materials, the longest SHK of this series is 6mm. With the patent polishing process; the cutting tools are very sharp.
- Its quality is superior to European and American ones.
