Overview

Description:

This matte cold laminating film is clear PVC film with acrylic pressure sensitive adhesive for backing up the picture. This material mainly focuses on the usage of protecting the graphics without getting smudged, dirty, scratch or wet. The process without destroying heat sensitive papers makes it widely used on laminating graphics and designs. The base paper has two kind of color: white and yellow.

Characteristics:

The surface is marble silk texture.

Applications:

It widely used on laminating graphics and designs, such as personal photos, advertisement pictures.
