### Overview

---

**-EIV MASTER ELECTRIC COLD Laminator**

Driven by electric, single side mounting and cold laminating  
No need to heat, no auto rewind shafts  
This series cold laminator is the first choice after printing and also one perfect equipment for all kinds of post productionsof ink-jet printing

**Product highlights:**

- . 5" bigger rollers for best quality laminating control. Maximum nip opening up to 0.8" for a wide material range of film and substrate.
  - . Fine appearance-surface treatment with plastic spraying.
  - . Electric driving, economical, serviceability stably.
  - . Simple construction, good operability, safe and reliable service and complete functions, and allows mounting of sheets and liner plates
  - . The cold mounting thickness is adjustable freely within the applicable scope.
  - . This series of laminator is widely used in a lot of fields, such as ink-jet printing industry, exhibit industry, photo studio and designing institute. It can use rolling material to process the objectives, and it also can be used to make overlay film on the surface of objectives independently.
- FMJ-1600EIVZ is upgraded from FMJ-1600-EIV. It has all functional characteristics of FMJ-1600-EIV, and comes with support shaft for using auto rewind the backing paper in some projects.

**Application:**

The cold laminator is used for after printing. Available for photographic, Ad. Shop and copy shop to do lamination work, adding a protective layer on books cover, photographic, color pages, documents, charts, drawings, indoor advertising products, etc.

**Applicable Laminating Medium:**

Photopaper, self adhesive PP, backlit film or transparent film.

**Guarantee & Aftersales Service:**

- Comprehensive guarantee for one year.
- 24-hour technical support by email or calling.
- User-friendly English manual for machine using and maintaining.

**Details**

Maximum Laminating Width	63" (1600mm)
Maximum Laminating Thickness	0.8" (20mm)
Rollers Diameter	5" (128mm)
Maximum Laminating Speed	Up to the operator
Maximum Internal Diameter of	3"
Profile	Single sided cold laminating and mounting by Electric.

Surface treatment with plastic spraying. It can be

**Specifications**

operated by hand or electric. Budget cold laminator machine for you.

Model	FMJ-1600-EIV
Max. Laminator Width	63.0" (1600mm)
Roller's Diameter	5.1" (130mm)
Max. Laminating Thickness	0.8" (20mm)

Laminating Speed	55"-157" (1.4-4m) / minute
Foot Pedal	Yes
Forward / Reverse	Yes
Auto Rewind Shafts	No
Auto rewind liner pickup	No
After Laminating Pickup	No
Power	AC 80V-110V, AC 110V-240V, 50Hz or 60Hz
Machine Weight	224.9lb (102kg)
Machine Dimension	71.3"*14.4"*14.8" (1810*365*375mm)
Package	Fumigation free package
Packing Size	76.1"*23.4"*21.5" (1934*594*545mm)
Gross Weight	324.1lb (147kg)
