Q I have a "Sign Wizard" program; will it work on this cutter?

A Our cutting plotter supports PLT format picture , if your program comes with PLT format , you can transfer it into our cutting software .

Reply by sign-in-china

Q How long should I exchange the cutting blades? What is the working life for the blades?

A	Blades belong to the consumable parts, the working life related to the cutting material(such as the material thickness, viscosity), the operate skills, blade press, etc. When cutting the small images or characters, the cutting speed should be slow down, the cutting press should be moderate. Reply by
Q	What are the consumables for the cutting plotter?
A	Blades and holders. Reply by
Q	Can this cutter both print and cut?
A	This cutter can only cut. Reply by
Q	Can this machine die cut too? If yes, the maximum grammage of material?
A	Yes,it can.The maximum cutting thickness is 0.5mm. Reply by
Q	I would like to know what is contour cut?
A	Contour cut means that you use the printer to print on decal paper or whatever,then the cutter cuts out around the graphic to make a sticker of what you printed. Reply by
Q	Does this cutter support Adobe Illustrator for design?

A

It supports Adobe Illustrator.You can use the Adobe Illustrator to design the image and save the image as PLT format,then you can output the image through Artcut and cut the image out!
