Overview

- **Lightweight** - stand and banner weigh less than 5kg
- **Banner is vertical and does not lean back**
- **Includes custom-printed banner**
- **Four day lead time**
- **Made of high quality aluminum-alloy**

This Y banner display is ideal for indoor advertising. Unlike other stands, such as portable display systems and retractable banner stands, the Y banner display is very lightweight and holds the vinyl banner vertically, which makes for a greater visual impact. We offer this kind of display because it is lightweight, inexpensive and does not tilt back like other banner display stands.

Those that do tilt back do not have the same effect as a perfectly vertical banner.

This banner display is constructed from lightweight aluminum with plastic connectors. This makes it very inexpensive; the majority of the cost is generated from the included full-color custom vinyl banner.

This banner display, like our other displays and retractable banner stands, comes complete with a custom printed banner. We create the custom printed banner from the users' artworks, so they control what is on the vinyl banner.

Application:

Ideal for indoor advertising
