Overview

Feature:

- . Fast and easy to setup
- . Lightweight with compact
- . Strong Pop Up Frame
- . Available in a variety of sizes
- . Affordable

Description:

This trade show exhibit, "pop up display" is fabricated from `lightweight` brushed aluminum. It's very simple to install, raise until the frame is in its fully upright position, then connect all of the hooks in the frame as shown above. This will keep your frame from collapsing. Your custom graphics attach to the display with velcro adhesive. When the frame is fully assembled, the fabric is stretched tight to reduce wrinkles and give a clean look. These pop up displays are compact and portable trade show booths that are great for traveling. Each of these pop up displays comes with a soft travel case at no extra cost. All graphics must be removed from `the` frame before the display can be folded together and placed inside the case.

Application:

This pop up display are perfect for trade shows, conventions, exhibitions and others.
