Overview

- Fully adjustable telescopic pole reaches up to 2.1m high
- Gripper-style hangers
- Comes complete with a drawstring carry bag
- Stylish silver anodized finish
- Includes a carry-on bag

These lightweight banner stands can be assembled in minutes!

What makes this banner stand truly practical? Thoughtful details, like the way it sits at a slight angle, so it's easy to see at trade show exhibits and presentations. In addition, the telescoping back pole on these trade show displays adjusts in height to fit banners that are 35" to 85" high, so the right size to fit trade show booths or display areas can be chosen.

- Banner stands with custom graphics are lightweight, because of a durable, all-aluminum structure.
- They're easy to carry to trade show exhibits and shows - each telescoping banner stand includes a handy carry-on bag capable of storing custom graphics.
- Trade show displays are easy to assemble and set into place, even in small and crowded spaces.
- Black frame holds 36" wide banners.
- Price reflects the receipt of print-ready file.

Application:

Great for trade show exhibits and presentations.
