Overview

- Spring-loaded telescopic back leg ensures tension of graphics
- "Footless" design, floor-to-top graphics
- Fully adjustable hook loop included
- Strong, rigid, and simple

This product is an improved version of previous products; a stylish foot design and smooth surface make for an elegant appearance. A zinc-alloying foot makes the product steadier and said foot can be plated in different colors in order to adapt to the customers' varying preferences. In a performance-to-price ratio and functioning, it proves to be very effective. The product surface is well protected, despite the simple packaging. With a unique foot design, this mid-level product is sold at an attractive price.

Application:

Great for presentations, trade shows, seminars, training, etc.
