### Overview

For non-metal materials.  
Automatic and manual functions.

**Applications:**

The Acrylic bending machine is suitable for bending non-metal materials, such as acrylic, PVC, PE, PS, ABS, PP, etc.

**Features:**

- . Automatic and manual function with CNC operations.
- . Automatic function to bend the sheet.
- . Softening crevice can be adjusted according to the thickness of plate.
- . The heating plate can be fixed avoiding defamation.
- . The Acrylic Bending Machine has an infrared heating system to prolong the lifespan for more time rather than the hot furnace filament.
- . The temperature and working voltage can be adjusted according to the material and thickness.
- . Water circulation protects the configuration and the overheating alarm temperature ensures the safety of the machine.
- . The current package protects the equipment.
- . Bending acrylic support for PVC, PE, PS, ABS, PP and more.
- . Thickness range ending 0.8mm to 6.00mm(there is no need to cut a slot on the sheet)  
6.00mmto 20.00mm(there is need to cut a slot on the sheet)

**Warranty and after sales services:**

One year of warranty except the spare parts.  
24 hours technical support by mail or phone.  
User friendly English manual on how to use the machine and accomplish the maintenance.

**Samples:**

## Specifications

Specifications	
Model	ABM-SB-2400A
Angle	30°--180° (0-180° for option)
Overall Length	2280mm
Overall Width	440mm
Bending Thickness	0.8mm~20mm
Overall Height	1100mm
Working Length	2400mm
Power	7.5KW (Working power 2.5Kw)
Machine Dimensions	3200×440×1100mm

Machine Weight	220kg
Package	Fumigation free package
Packing Size	3200×650×1410mm
Gross Weight	260kg
