### Overview

- . Super slim, 0.7" (18mm) thick aluminum frame.
- . Energy saving, LED light saves 75% more power compared to traditional light boxes.
- . Mild and soft LED lighting, which is comfortable for eyes.
- . Long life-span, can reach up to 30,000hrs, the light attenuation would be less than 10% in the first 8,000hrs.
- . High-quality even lit guide plate distributes light evenly.
- . Can be placed in the ceiling or wall-mounted for versatility.
- . CE & UL certificated.

This light box is the pioneer aluminum frame LED light box industry in the world. Its top design for showing window and guide board. It has a fashionable design and larruping sight. It can be used in subways, airports, supermarkets, shopping malls, etc.

Side Frame

Thickness

**Details**

**Description:**

The finished slim lightbox is comparable with products of the same range in foreign countries. It is based on the optics theory that precision machineries can be made into `network` ditches with different width on the high polymer organic materials. This kind of ultra-thin light box is durable and practical with aluminum frame whose width is 1.2"(30mm) and thickness of whole product is 0.7" (18mm), all characters of which make the whole product high-quality and valuable. Also, the slim lightbox uses LED lighting for power saving. It's widely applicable for advertisements in shopping mall, hotel, restaurant, supermarket, etc.

**Highlights:**

AD series super slim light box whose frame width is 1.2"(30mm) made of superior aluminum and nice frame structure and thickness is 0.7"(18mm), is commercial and valuable.

**Remarks:**

The overall image size needs to be larger than the viewing size, In order to have a perfect fit and a great view of the image. That goes for all A1-A4 models.
