Overview

- . Durable blade, it's made of steel blade.
- . Time saving and labor saving.
- . Multi-function full-automatic, it's convenient to use.
- . High Precision, reasonable structure to ensure the card is cut accurately.
- . Electronic eye induction system and microcomputer control.
- . Unique unitary design of longitudinal cutter case, fast to replace.

Descriptions:

This full-automatic cutter is used for cutting business card, photos and various of certificate cards, etc. It's durable for the steel blade and the blade could be milled by itself to ensure it will be sharp. This cutter cut business card without rough edges because of its reasonable mechanical structure. It's with multi-adjustment with nice out appearance.

Notes:

Standard configuration is for size 3.5" (89mm) or 2.1" (54mm). If you need to cut various sizes of card, you can buy more blades.
The price is \$188/pc for size 3.3"/3.5"/3.7" (85mm/89mm/90mm/95mm) and \$375/pc for 2.1" (55mm/54mm). One blade can only cut one size of card.
