Overview

The updated Auto-grommet machine is developed specially for highly automatic to perform collecting grommet, feeding grommet, piercing material and pressing grommet with washer together. It is convenient and removable to operate both on the ground and on the table with lower noise and comparatively cheap price. It greatly increases the productivity. The machine with double cylinder has larger pressure and press grommets firmly.

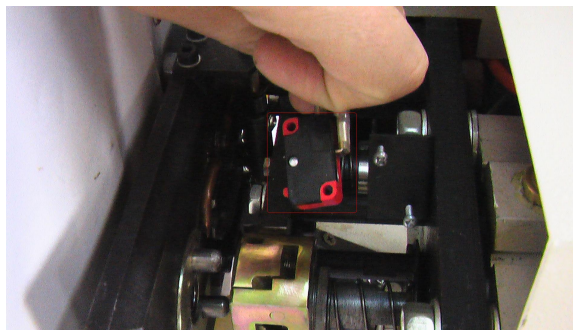

Its small size and weight make it possible to working on the ground, which greatly release the working intension. Applicants cover grommet for billboard, tents, and tarpaulins. It's punch a hole and press grommets on the tents, tarpaulins, etc. This machine uses #5 iron grommets.

Remarks:

No.5 eyelet: inner diameter 10mm(0.4"), outside diameter 19.5mm (0.8")

Applicable for iron grommets
