Overview

Description:
. High-end take-up system with tension control, which not only extends motor's life, but also makes media rolled more neatly. For installation in the front of Mutoh VJ1604 and other photo machines with similar stands.
. More practical design with sliding channel design and adjustable width. For applications such as: car stickers, textile cloth, paper, wallpaper, etc. Ideal for industrialized production and for aqueous and light solvent ink printing.
. The bearing weight is 40 kg.

Characteristics:
- Operating principle: Motor drive with inductive tension bar to control the media rolling.
- Main functions: To tighten paper, cloth and other media.
- Switch control: automatic or manual, internal or external coil switch control.

- **Compatible printers:** Apply to Mutoh VJ16 Series, Epson GS6000, Epson 7700, Epson 9700
 (Other models can be customized according to the dimensions provided)
