Overview

Description:

C-grade acrylic sheet is cheaper than A and B-grade in price. It's distinct advantage is closer thickness tolerances so providing uniformity through the whole sheet.

We have 22 and more kinds of Grand-C boards with different thicknesses from 0.1" (2mm) to 1.0" (25mm). And the size is 48.0"*94.5" (1220*2400mm).

Features:

- . Right thickness tolerance.
- . Oversize sheets.
- . Excellent colour uniformity.
- . Better impact strength than glass (8x greater).
- . Crystal clear transparency.
- . Fabricated, not too complex thermoformed.
- . Chemical resistance to common acids, alkalis, salt spray, petroleum oils and grease.
- . Weatherproof generally.
