### Overview

#### Application:

The CW-3000H circulating cooling machine is designed to cool the spindle of the CNC engraver machine.

#### Product Highlights:

.The voltage of this cooling machine is AC220V and the frequency is 50/60Hz.

### Details

Main Application	cooling
------------------	---------

### Specifications

#### Specification:

Model	CW-3000H
Power Supply	220VAC, 50/60 Hz

Power Consumption	80 VA
Cooling Tank Capacity	9 L
Cooling	Radiator that forces
Amount of Cooling	70 W/°C
Way of Circulation	Forces circulation
Maximum Current Capacity	1 L/min
Maximum Pumping Lift	60 m
Diameter of Input and Output	6 mm
External Dimension	470×262×373mm
Machine Weight	10 kg
Package	Carton case package
Package Size	585×380×470mm
Gross Weight	13kg
