### Overview

**Application:**

The CW5000-AK circulating cooling machine is designed to cool the spindle of the CNC engraver machine.

**Remarks:**

. The voltage of this cooling machine is AC220~240V and the frequency is 50Hz.

### Details

Main Application	cooling
------------------	---------

### Specifications

**Specification:**

Model	CW-5000AK
Voltage	AC220~240V
Frequency	50Hz
Current	1.4~2.1A

Cooling Capacity	2361Btu/h
Refrigerants	R-134a
Charge Amount	338g
Max. Pump Lift	100M
Machine Dimensions	55x28x43 cm
Machine Weight	31Kg
Package	Fumigation free case package
Package Size	72x44x62 cm
Gross Weight	36kg
