### Overview

**Application:**

The CW5000-BK circulating cooling machine is designed to cool the spindle of the CNC engraver machine.

Remarks: The voltage of this cooling machine is AC208~230V and the frequency is 60Hz.

### Details

Main Application	cooling
------------------	---------

### Specifications

Model	CW-5000BK
Voltage	AC208~230V
Frequency	60Hz
Current	1.4~2.1A
Cooling Capacity	1832Btu/h
Refrigerants	R-134a

Charge Amount	338g
Max. Pump Lift	100M
Machine Dimension	55×28×43 cm
Machine Weight	31Kg
Package	Fumigation free case package
Package Size	72×44×62 cm
Gross Weight	36kg
