Overview

Application:

The CW-5200BK circulating cooling machine is designed to cool the spindle of the CNC engraver and cutting machine.

Remarks:

. The voltage of this cooling machine is AC208~230V and the frequency is 60Hz.

Details

Main Application	cooling
------------------	---------

Specifications

Model	CW-5200BK
Voltage	AC208~230V
Frequency	60Hz
Current	2.6~3.3A

Cooling Capacity	6295Btu/h
Refrigerants	R-22
Charge Amount	350g
Max. Pump Lift	100M
Machine Weight	31Kg
Machine Dimensions	55x28x43 cm
Package	Fumigation free case package
Package Size	72x44x62 cm
Gross Weight	37kg
