Description:

Introducing the high-precision universal flatbed printer series, with Japanese CNC Software, programmable touchscreen operation system to import, step motors and serve motors under CNC operation. Automatic adjustment, precise positioning, high-precision, perfect printing, color repetition up to 100%. It is the most stable printer among all the universal flatbed printers, and it can be used for a variety of personalized printing and industrial printing.

Simple operation system, easy to learn, no printing panel prepared, suitable for all kinds of soft and hard materials, such as leather, metal, plastic, ABS, TPU, PVC, wood ,etc.

Full color, high-precision and anti-color fading.

Samples:

Details

Ink colors	7-color Ink Jet(Y,M,C,MK,PK,R,B)
Max Media thickness	170mm
Print resolution	5760*1440dpi
Max print size	329mm*600mm
Printer head	Espon
Interface	USB2.0

Specifications

Specifications			
Printing Mode	7-color Ink Jet(Y,M,C,MK,PK,R,B)	Max. Printing Width	329mmx600mm
Resolution	5760x1440dpi	Max. Thickness of Material	170mm
Nozzle Configuration	1440Nozzles(180 nozzlesx 8colors)	Minimum Ink Droplet	1.5 pico-liter
Printing Speed	A3, 3mins photo quality mode.	Power Supply	AC220-240V/AC110-120V, 50HZ?60HZ
Transmission Type	USB2.0 / IEEE1394	Working Environment	Temperature: 5?35°C; Humidity: 20?80%
Weight	60KG (net), 85KG (gross)	Driver	Microsoft Windows98/2000/Me/XP
External Size (lxxwxh)	900x640x550MM	Jet Cleaning Type	Automatic
Shipping Size (lxxwxh)	1000x740x700MM	Ink Feed Type	150ml/Color(Y,M,C,MK,PK,R,B)
