Overview

Features:

- Compared with traditional air cooling fan, this is a magic colorful fan, because we add dynamic LED letters and the benefit to display photos.
- Approved International Household Electrical Safety Certification.
- Made of metal to make it more efficient than traditional plastic fan.
- Motor adopts ball bearing instead of oil-retaining, avoiding the burning of fan caused by oil lack.
- Adopts crossing blade, which makes the fan running quietly.
- Two speed thresholds, customers can adjust the wind speed as they want.

Application:

Widely used for various consuming and entertainment places such as restaurant, pub, coffee shop, dancing hall, reception room, etc.
